

## **Nutrition Response Testing PROGRAM & Pricing**

### **Consultation (2 Day)**

**\$ 85**

First visit, you fill out paperwork (or download & print from our website and bring in), next, we do Heart Rate Variability Testing, and Nutrition Response Testing Body Scan - Second visit, we go over the Report of Findings from the Body Scan & other testing. Next, we will determine together, if this program is a good fit for you. If you are moving forward, the next step, we order bloodwork.

### **Nutritional Blood Chemistry & Lab Testing**

**\$275**

A Comprehensive Bloodwork Panel and Urine Analysis is ordered for you. Next, you get an email invoice, to which you pay directly online. Once paid, an additional email with a barcoded Requisition Form will be sent. Print and take with you to LabCorp for your blood draw. Go to [LabCorp.com](http://LabCorp.com) to find your closest location and make your appointment online. Keep in mind, you will need to have a 12-14 hour fast prior to testing. (Water is fine, no coffee)

### **Blood Chemistry & Lab Testing Report**

**\$ 90**

After approximately 5-7 days, your final lab findings will be available, at which time, you can contact us to schedule your Lab Testing Report of Findings - (usually 40-60 min) - We may need to modify your initial body scan with these new lab findings (done the same day).

### **Supplements**

**Variable**

A customized nutritional program is designed specifically for your individual needs using whole food, homeopathic, & herbal nutrition.

### **Nutritional Response Testing Program**

**\$ 40 ea**
